

You Want the Finest Education You Can Get

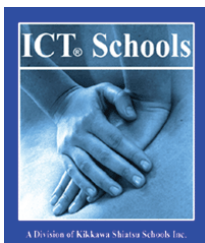

Here are some important questions to consider when you compare colleges:

Some other points to think about:

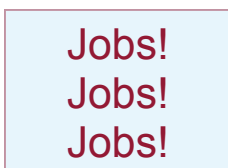

- ☞ Does the school have a holistic approach? It is the direction of health care in Canada today.
- ☞ Is it important to the school that the environment is friendly, caring, and respectful of each and every student, employee and clinic client? Can that be seen and felt when you visit the school?

At ICT Schools we pride ourselves in going that extra mile to ensure that you, the student, are receiving an excellent education, and that your experience is positive, supportive and memorable.

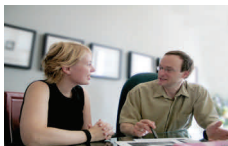

Top Ten Reasons to Choose an ICT® College

Need more convincing? Check out our FAQ page at www.ICTschools.com

Athabasca University

CANADA'S OPEN UNIVERSITY

- 1. REPUTATION. 35 Years of Educational Excellence:** Attend an institution that has been operating for 35 years under consistent leadership by owners who are themselves health care providers, distinguished in their respective fields, respected educators and pioneers in the field of massage therapy education. Our schools are founded upon 35 years of dedication to excellence.
- 2. SPECIALIZATION. Massage Therapy Is Our EXCLUSIVE Focus:** Massage Therapy education is what we do. It's our passion. No business courses, no computer courses. Just massage and related complementary therapy education. For 35 years. It's who we are. It's what we do.
- 3. GET WORKING! Fast-track Your Education:** Why spend the required three years at a Community College when you can graduate with your diploma in massage therapy in two years or less? Ask us about our Fast-track option or our Advanced Standing Program. You can be a licensed and practicing therapist in less than 20 months from the day you attend your first class. Qualified health care practitioners (and others with degrees in the health or physical sciences) are eligible for our 10 month *Advanced Standing Program*.
- 4. JOBS! Job Opportunities:** Our Grads are in demand. A recent count at Kikkawa College demonstrated that in a three month period we received over 70 job postings. These job postings were received directly from employers looking for our graduates. Also, through our Alumni Association, upon graduation we will e-mail you all job opportunities we receive. We will also offer you help with writing your resume and cover letter.
- 5. COMMITMENT. We care:** At ICT, we are deeply committed to providing a caring and supportive school environment for each and every student. Our student-centred approach provides the kind of support system that makes a difference. In the words of a recent grad: *"Thank you for all your support and guidance. Thank you for being there not just for me but for every single student that you have guided and helped and for all the upcoming students that you will be guiding to become the best RMT's that they can be."* (Josie Lattip, Kikkawa College.) Visit us as a student-for-the-day and find out for yourself. We really do care!
- 6. OUR PROGRAM & FACULTY: A uniquely integrated and compelling learning experience:** Here's Howard Makofsky, a another recent graduate (this time from Northumberland): "I want to commend you, the instructors and administration of ICT for the wonderful way the curriculum was integrated. As a former faculty member at a Physiotherapy School in New York, I remember how hard we worked to integrate our courses so I appreciate what you have done. What struck me was how complementary and well timed CATS200 (Clinical Assessment and Treatment Skills) and PATH200 (Pathophysiology) were form day one. Whether it was the CNS, peripheral lesions or nutrition, the two courses dovetailed beautifully so that one reinforced the other. Experiencing this integration as student convinced me of its value in the learning process.... *I have had a fulfilling learning experience at ICT* and hope to stay in touch."
- 7. EVER CONSIDER UNIVERSITY? Keep your options open.** A Massage Therapy diploma from Kikkawa College or Northumberland earns you 30 credits (one year) towards a Bachelor of Health Sciences at Athabasca University. Athabasca has reviewed our program and granted us transfer-credit status. Now you can make your college tuition pay for one year of university!
- 8. FREE TUTORIAL SERVICES. Need a little extra help?** Don't worry. At ICT Schools we provide additional group tutorial services for free. You get the additional help you need when you need it.
- 9. HEALTH & WELLNESS.** A holistic orientation to health care is becoming increasingly important to health care providers. Choose from our list of Electives in your second year of study. Decide which courses are best for you! Currently we are offering Elective classes in Thai Massage, Reflexology, Pregnancy Massage, Suikodo® (exclusive to ICT), Sports Massage or a Field Placement option. Choose just two or more if you want!
- 10. IT'S NOT ALL WORK!** Serious study is an obvious prerequisite to success. But you know what they say about 'all work and no play'. At ICT, we support and promote an active Student Association which, through organized events and activities, makes your time at college an exciting and socially rewarding experience. Join us and join in!
