

HEALTHCARE MANAGEMENT

Post-Graduate Diploma in Healthcare
Management

JANUARY 2026

> Introduction

About The Program

The healthcare industry is evolving rapidly, with increasing demand for skilled professionals who can navigate complex administrative, financial, and operational challenges while ensuring high-quality patient care. The Post-Graduate Diploma in Healthcare Management at ICT Schools is designed to equip healthcare professionals with the strategic leadership and management expertise needed to excel in supervisory and executive roles within hospitals, clinics, long-term care facilities, and other healthcare organizations.

This program goes beyond traditional healthcare administration by integrating modern best practices in digital health systems and adaptive leadership strategies. Students engage with real-world case studies—from telehealth innovations to pandemic response—ensuring they graduate ready to tackle both today's challenges and tomorrow's unknowns. With a focus on ethical leadership, ICT Schools cultivates managers who don't just adapt to change, but lead it.

> Program Highlights

This hybrid (in-person and online) program blends theoretical knowledge, hands-on training, and real-world applications, preparing graduates to effectively manage healthcare systems, optimize service delivery, and lead multidisciplinary teams. Whether you are a nurse, allied health professional, or healthcare administrator looking to advance your career, this program provides the essential skills in healthcare policy, financial management, operations, and leadership required to thrive in today's dynamic healthcare environment.

Total Instruction Hours

1,460
